Jay Wohlschlaeger from

APPOINTMENTS TO BOARDS AND COMMISSIONS- Mayor Marti noted that there were no appointments at this time. Appointments were tabled until the August meeting by a vote of 4-0.

SPECIAL DISCUSSION
1. Holmes Avenue Update. The Citizen comments, petitions and correspondence were reviewed and discussed by the Board. Engineer Paul Spotanski was available to answer questions. Alderman Graville noted his support for the removal of the northernmost chicane, and Alderman Stewart agreed as this end sees less traffic and would have more impacted parking. The location of the northernmost crosswalk was discussed. Alderman Bach and Alderwoman Graves both noted that the crosswalk could be relocated to the best location for pedestrians, perhaps at Jefferson, without removing the sidewalk from the northern end of the project. Bike path issues were discussed, and Engineer Spotanski pointed out that a designated bike lane would have required a wider project, and can not be added now. Share the Road signage possibilities and lane markings were discussed and it was agreed that as the project progresses the engineer will be alert for ways to
make the project bike friendly. Alderman Stewart moved to amend the plan to end the sidewalk at Argonne going north. The motion died for lack of a second. It was noted by the Board that not everyone at the public hearings opposed the sidewalk and it had been determined to be in the best interests of the City. Alderman Graville moved and Alderman Bach seconded to amend the plan to remove the northernmost chicane if Kirkwood agrees and to modify the location of the northernmost crosswalk as a field change to the location determined best for pedestrian traffic when the project is complete. The motion carried 4-0. The City Administrator reviewed for the Board the conversations had with Skip Kincaid regarding the possibility of saving the tree at 120 North Holmes, and the Board authorized her to continue to work with Mr. Kincaid to evaluate options to save the tree. The Board determined not to accept at present a proposal from Outdoor Solutions to move street trees, and the Administrator was authorized to review these tree issues with Mr. Kincaid as well.

2. Pothole repairs were discussed with Code Enforcement Officer Hanser. He will set up a meeting with Alderman Stewart and Tony Koenig from the Kirkwood School District to discuss water issues that may impact the pot hole situation on Sappington near Argonne.

3. Mayor Marti informed the Board that he and the City Administrator had met with MSD to review culvert issues in the City.

4. City Administrator’s Report. The report was reviewed and discussed. The picnic will be scheduled for 10/24 and pricing will be sought for three categories of needs: catering, rentals and entertainment. Alderman Graville reported on the ATT settlement and that an ordinance for the Board would be forthcoming from Dan Vogel. Greg Hanser reviewed options for the graffiti clean-up and was authorized to have Lavin do the painting per the low proposal offered. It was agreed that the next newsletter would go out in September and that street sweeping would be scheduled for after the streets project.
